

Welcome to the **AI-powered future** with Copilot for Microsoft 365!

Welcome to a transformative journey into the world of Copilot for Microsoft 365.

A groundbreaking addition to the realm of Artificial Intelligence (AI) and collaborative productivity.

Whether you're a tech enthusiast exploring Copilot's potential or someone intrigued by its capabilities, this educational battlecard is your guide to understanding and harnessing the power of AI in the modern business landscape.

The rise of AI in everyday life

AI has stealthily become an integral part of our daily routines, subtly improving the way we experience the world. It operates like an invisible force, evolving to make our lives more efficient and personalised across diverse industries. Copilot, a relative of ChatGPT, introduces a user-friendly, text-based interface that mimics the ease of conversing with a colleague.

By leveraging the capabilities of Generative AI and Large Language Models, Copilot goes beyond conventional AI tools. It offers additional features not found in public AI tools, providing a secure and organisation-friendly platform to enhance productivity.

Microsoft 365 Copilot

Copilot unveiled

Your digital personal assistant

In essence, Copilot is your digital personal assistant seamlessly integrated into the daily apps you use. It's more than just a tool - it's a companion designed to simplify complex tasks and improve collaboration. Copilot inherits the legacy of ChatGPT, offering a helping hand in navigating the digital landscape.

Redefining productivity

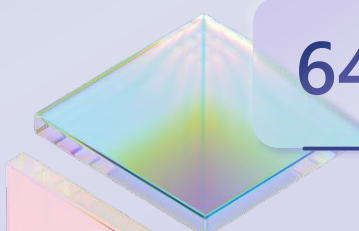

Not just an IT tool

Copilot is a strategic business enabler. In a landscape where organisations seek tools to expedite success, reduce costs, and gain a competitive advantage, Copilot emerges as a solution that addresses these needs. It becomes a catalyst for growth, aiding in revenue generation, fostering innovation, and transforming the way we work.

Executive conversations

Beyond IT to business outcomes

Business transformations are driven by C-level decisions, focusing on outcomes rather than features. Copilot positions itself as a transformative asset, comparable to core digital products like ERP, CRM, and Human Capital solutions. It has the potential to redefine employee productivity and reshape the way organisations approach their digital journey.

64% of people struggle with having the time and energy to do their job

60% of leaders say a lack of innovation or breakthrough ideas is a concern

Assessing the impact

What are your customer's goals for using AI?

To assess the financial appropriateness of integrating Copilot, delve into key performance indicators (KPIs) and trends that signify time savings. Understand how Copilot can positively impact information processing, collaboration tasks, and content creation. These trends offer a tangible way to measure the return on investment (ROI) and validate the adoption of Copilot within your organisation.

Spend too much time searching for information during the workday

Copilot in Action

Unveiling Time-Consuming Task Solutions

Visualise Copilot as your intelligent assistant, seamlessly managing time-consuming tasks such as email processing, meeting attendance, and information retrieval. Copilot doesn't just assist; it actively participates in meetings, ensuring key outcomes are outlined. Integrated into Microsoft 365, Copilot navigates through documents, providing information at your fingertips within a secure environment.

Cultivating creativity

Copilot as your brainstorming assistant

Explore Copilot's role in unleashing creativity within your daily tasks. It transforms simple ideas into polished documents, acting as a constant brainstorming companion. Copilot learns and evolves with your input, offering suggestions that align with your unique style and requirements. This enables the quick production of high-quality content, freeing up time for essential tasks.

In conclusion

Copilot for Microsoft 365 is not just a tool; it's an educational journey into the **AI-powered future**.

Embrace the educational insights provided in this battlecard, and empower your organisation to navigate the evolving landscape, foster innovation, and achieve transformative outcomes with Copilot at the helm!
